TLO LES: APD officer

Suspicious Activity: Expressed or Implied Threat, Recruiting, Officer Safety, Regional Crime Trends, Other

Report:

Primary suspect, John Bush...anti-government activist in Austin, Texas...along with his wife, Catherine Bleish

This couple is the owner of Brave New Books @ 1904 Guadalupe St, Suite B, a retailer of anti- government focused books and other media, as well as a venue for public speakers whose topics are related to anything along the anarchists' mindset. They are "very" active in their own circles, and John Bush has recently posted the follow on his Facebook:

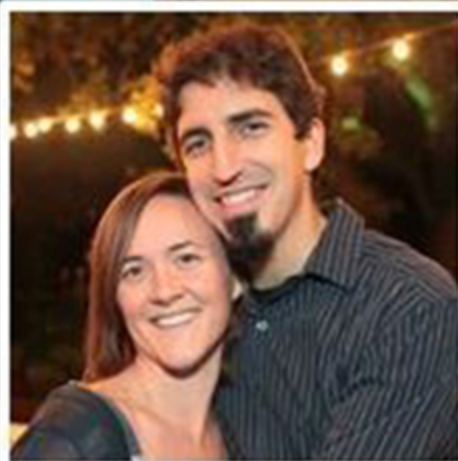

What if instead of standing by and filming, organized groups of freedom fighters rushed the police, subdued them, and expelled them from their communities?  
Freedom Cells are an answer to police brutality.

One Austin Police officer, John Gabrielson, is a connected "friend" of this couple, and he is personally introduced by John Bush, at Brave New Books, in this video:

The depth of the relationship is unknown, but this Officer Gabrielson is well known for his firm stance on government conspiracies, and it's connection to a more biblical front.

Catherine Bleish An APD officer organized the Free Your Mind Conference that gets into conspiracies as deep as Ancient Aliens. He is harassed at work by his fellow officers. I consider him a friend of the family.
